(54) Title: METAL-COATED CARBON SURFACES FOR USE IN FUEL CELLS

Schematic diagram of a fuel cell.

(57) Abstract: A method of coating a carbon article with a metal by cyclic voltammetrically electrodepositing the metal on the carbon article, thereby forming a metal coating on the carbon article and the metal-coated carbon article made by the method. A metal-coated carbon article having a carbon article and a metal coating disposed on an exterior surface of the carbon article, the coating being present in an amount less than about 0.1mg/cm².
